

COVID-19: Telehealth – Visit Billing

Resources and Tip Sheet

As the COVID-19 pandemic and federally declared state of public health emergency evolves, healthcare providers are quickly and desperately looking to telemedicine as a viable alternative to traditional office visits for limiting not only their patients' exposure to each other, but their providers' exposure to patients to ensure compliance with safety and distancing requirements. Increased interest in telemedicine combined with recent changes to situation / circumstances, coverage, documentation and billing guidelines and laws have led to a significant increase in requests for information and education about telehealth reimbursement compliance.

In an effort to provide support with accessible information on demand, we've created a tip sheet for quick reference, supplemented by direct links to the CMS and AMA where these changes continue to develop.

The tip sheet will be updated as new information is released and analyzed.

Have questions? Need assistance? Feel free to contact us directly to schedule a call with one of our billing compliance experts.

We will get through this together. Be considerate and kind. Be well. Stay healthy.

COVID-19

Telehealth - Visit Billing

As of April 2, 2020, 4pm EDT

Telehealth services require certain conditions be met by the provider for coverage to be allowed. The information contained in this document should be supplemented with the official source documents at the links located at the bottom left corner of the page.

PURPOSE

As physicians and other qualified healthcare providers plan response to patient inquiries regarding coronavirus symptoms and concerns, information is emerging from the Centers of Medicare and Medicaid Services ("CMS") as coverage and access to care changes through telehealth during the COVID-19 outbreak under the 1135 waiver. This document was prepared as new information became available. Please note all providers must be responsible for verifying the information contained herein and keep up to date as guidance is released by the official sources, such as the Centers for Disease Control, ("CDC"), American Medical Association ("AMA"), CMS, State Medicaid, other payor & public health websites.

Visits and virtual services are important tools to maintain reasonable patient access with an attempt to keep patients healthy and helping to contain the community spread of the COVID-19 virus.

Be well, stay healthy. We are in this together!

Effective
4/1/2020

VIRTUAL CHECK IN (HCPCS G2012) – (NOT CLASSIFIED TELEHEALTH)

Brief communication technology-based service, e.g., virtual check-in, by a physician or other qualified health care professional who can report E&M services, provided to an established patient, not originating from a related E/M service provided within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of medical discussion.

- Place of Service = provider's place of service code

Coverage Requirements (as of 3/1/2020)

- Interim final rule allows new or established pt during PHE.
- Expected to be patient initiated, but provider may need to provide beneficiaries information on this specific visit availability
- Requires direct phone **OR** video communication between patient and provider unlike other telehealth visits
- Brief, approx. 5-10 minutes
- **QNHP can provide with modifiers (GO, GP, GN) with est. pt POC**
- **Do not bill if Virtual Check-In** resulting in any visit within 24 hours, next available, nor any visit by the same provider/specialty within previous 7 days
- No setting or location limitation; [RVU = (f) 0.37 and (nf) 0.41]

DOCUMENTATION REQUIREMENTS

- Documented Patient Consent (by ancillary* or provider at least 1x/year) *under GENERAL supervision
- Patient Location
- Chief Complaint or Reason for Encounter
- Justification for Telehealth Service
- Example: "Pt presents during the COVID-19 pandemic / federally declared state of public health emergency. This service conducted via (specify telephone or video). Patient is (specify immunocompromised; has co-morbidities that pose substantial risk if exposed; exhibiting signs/symptoms suspicious for COVID-19; diagnosed positive with COVID-19, etc.)"
- Pertinent History, Exam, Medical Decision Making
- Diagnosis
- Duration of Encounter

ICD-10-CM

- Z20.828, Contact with and (suspected) exposure to other viral communicable diseases
- Z03.818 Encounter for observation for suspected exposure to other biological agents ruled out
- U07.1 disease diagnosis of COVID-19 confirmed by lab testing
- U07.2 clinical or epidemiological diagnosis of COVID-19 where lab confirmation is inconclusive or not available
- **[CDC-WHO ICD-10-CM Guidance](#) & [WHO - COVID-19 Notice](#)**
