

A photograph of a woman with short white hair wearing blue scrubs and a stethoscope, standing next to a man with short grey hair wearing a dark suit and a patterned tie. They are both smiling and looking towards the camera. The background is a blurred hospital or office setting.

How do you know you are using the right intervention, with the right patient, at the right time?

Pinnacle has extensive experience in developing strategic solutions to measure success through your journey in value-based payment models including Medicare and Medicaid Accountable Care Organizations (ACOs), Commercial Shared Savings agreements, and Direct to Employer contracts.

Pinnacle's expertise includes but is not limited to:

- Identifying the appropriate population for intervention;
- Optimizing workflow and key strategies for transitional and longitudinal care management;
- Integrating Telehealth programs;
- Ensuring top of licensure productivity and revenue opportunities (i.e., transitional care management, chronic care management, nurse visits, etc.);
- Establishing process with care management non-negotiables, performance, and outcome metrics with accurate measurement tools;
- Integrating all care coordination and care management activities across the continuum of care;
- Transforming case management and social work infrastructure design and integration across the continuum of care; and,
- Tracking cost, utilization and outcome metrics.
