Healthcare is a rapidly evolving industry. Changes are making its business landscape more complex and difficult to navigate. Pinnacle was founded in 1998 to provide solutions and support by delivering high-value advisory and consulting services to our healthcare clients and law firms.

Pinnacle's proven strategies have played an integral role in the success of many healthcare organizations nationally. As a trusted advisor to hundreds of hospitals, health systems, surgery centers, medical practices, medical device, and life science companies, we've become an industry leader in a variety of core services and areas of expertise.

## Pinnacle's Mission and Vision

**Pinnacle's Mission:** Deliver healthcare advisory, consulting, and focused operational support services to manage risk, improve performance, and create innovative solutions.

**Pinnacle's Vision:** Invest in people who create a dynamic organization exceeding client expectations.
